

## Living Waters stories:

Here are some true experiences told by previous participants when asked why they came to Living Waters:

I came to Living Waters because “my family had a truckload of divorces and my mother had breakdowns. I coped by breaking down, not letting people come close. I'd help other people but wouldn't let anyone in. I got married, but I would let my husband get only so far.” I found “ Living Waters allowed me to see that God can use others to give me His Love”

I came to Living Waters because “ I grew up in a home where my parents were absent and in a church where there was not enough emphasis on grace. I sought comfort in food and fantasy” I found “ the way to freedom from my addictions began at the foot of the cross. In Living Waters, God replaced the lies – that I was ugly, not worthy, with His truth. Truth which carries freedom”

I came to Living Waters because “I was married and at Regent doing youth work. I felt shame and guilt at not being delivered from my addiction to porn. I found that God's grace goes deeper than my addiction.”
